

HAYDAY

THE ULTIMATE IN BALE WRAPPING

- Stable
- Versatile
- Australian Made
- Can load bales for transport

Gromark Packaging Pty Ltd

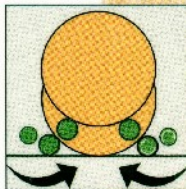

HAYDAY

FAST, VERSATILE AND ENGINEERED TO WRAP BETTER

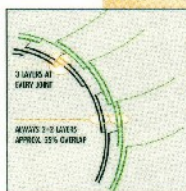

Wrap big bales fast, clean and safely with the ultimate in bale wrapping - Hayday with Autowrap. Australian made Hayday is fast and easy to load with no awkward manoeuvring required, and no need to lift and tip before wrapping can commence. Even with smaller tractors, Hayday is stable during the wrapping process and because wrapped bales are placed directly back on the ground - where you want them, they won't run away down slopes or into hollows. Hayday can also load to transport (*subject to tractor linkage lift specifications).

BOTTOM UP

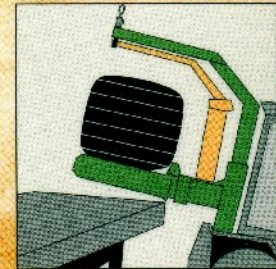

GENTLE LOADING & UNLOADING

PRECISE OVERLAP CONTROL 2+2

- Self loading-gentle & positive
